1 September 2009

In 2002, my wife Elizabeth and I began the process of fulfilling our dreams of building a custom home on 6 acres of land on the Santa Rosa Plateau, west of Murrieta CA. It is with great pleasure that we are able to write this letter of recommendation for our builder and friend, Robert Lackey. Robert's professionalism, knowledge, honesty, quality of work and communication skills made this a very memorable experience that turned our dreams into reality.

During the preliminary construction phase, Robert had to coordinate with various county offices, building code changes and escalating building materials costs. Without his diligence and knowledge of the 'system', this project would have cost us more money and extended the build time. With Robert's advice of using Community Bank, we reduced the overall cost of the build because the subs lowered their bids in order to be paid "same day" from a local bank.

Even with the record rains, and the road leading to the property being washed out twice, our home was completed on time. The workmanship and quality of the materials sets our home above the others in our area. We were in daily communication with Robert and thoroughly enjoyed seeing him everyday.

In summary, the job was built on time, within budget and the quality of work was top notch. The best recommendation we could give is that we would use Robert again to build another home.

Please feel free to contact us with any questions or if you would like to visit us to look at Robert's work.

Respectfully,

Mike Witous
